

PIONEERING THE FUTURE
of
HEALTHCARE
INNOVATION

Experts in innovation.
Partners in practice success.

We're not just a distributor or billing vendor — we're a dedicated partner in healthcare delivery. With a team of seasoned professionals in healthcare, compliance, and biologics, we deliver customized, scalable solutions that help practices.

CMS-approved solutions
for modern wound care

At New Horizon Medical Solutions, we supply healthcare providers with biologic products that support healing, improve outcomes and streamline clinical delivery. Our skin substitutes are crafted using cutting-edge amniotic membrane technology — designed to enhance patient care while aligning with reimbursement policies and practice efficiency.

OUR PRODUCTS

Proper wound care is essential for promoting optimal healing and preventing complications. Our products allow you to offer the best possible care for your patients.

XCELL AMNIO MATRIX

Xcell Amnio Matrix™ (XAM) is a lyophilized amniotic membrane allograft that delivers excellent barrier protection and retains native growth factors for regenerative healing. [Q4280](#)

XCELLERATE

Xcellerate® is an advanced amniotic membrane allograft with an extracellular matrix and an outer basement to support dermal regeneration in challenging wound environments. [Q4234](#)

AMNIO-MAXX

Amnio-MAXX® is a premium amniotic allograft designed to support chronic wound healing with retained growth factor activity. [Q4235](#)

AMCHOPLAST

AmchoPlast™ is a cutting-edge, sterile, minimally manipulated, dehydrated allograft designed to support homologous use in clinical applications. [Q4316](#)

DERM-MAXX

Derm-Maxx™ is an acellular human dermis graft sterilized using the Tutoplast® Tissue Sterilization Process. [Q4238](#)

MEMBRANE WRAP

Membrane Wrap™ is a sterile, easy-to-handle amniotic wrap designed for surgical and post-trauma use. [Q4205](#)

MEMBRANE WRAP HYDRO

Membrane Wrap Hydro™ is a hydrated amniotic membrane with a dual amnion layer, which allows application in more complex wounds. [Q4290](#)

TRI-MEMBRANE WRAP

Tri-Membrane Wrap™ is a triple-layer (amnion/chorion/damnion) dehydrated human amnion membrane (dHAM) which provides prefer due to the inherent tensile strength. [Q4344](#)

ADVOGRAFT MEMBRANE DUAL

Advograft Membrane Dual™ is a dehydrated, dual-layer placental allograft engineered to provide structural integrity and robust biologic activity for the treatment of deep or complex wounds. [Q4382](#)

ADVOGRAFT ONE

Advograft One™ is a dehydrated, single-layer amniotic membrane allograft derived from Human placental tissue. [Q4380](#)

New Horizon Medical Solutions is at the forefront of biologic innovation and practice optimization. We develop regenerative tissue products supported by reimbursement expertise and operational efficiency, empowering providers to improve patient outcomes while maintaining compliance.
