

Veterans: Manage your pain with HealthLight Red Light Therapy

Available to Veterans with VA Benefits at no out-of-pocket cost

HealthLight's Red light therapy (RLT) is a non-invasive, drug-free treatment that uses specific wavelengths of red and near-infrared light to support cellular function. People use it to relieve pain, improve circulation, and support overall wellness.

Use in the comfort of your home with no medications or internet required

HealthLight recommends 10–20 minute sessions at a time (varies depending on condition) and results are often felt after just a few sessions!
